

BODY EXFOLIATE

SEA SALT SCRUB WITH THYME ESSENTIAL OIL

Scrub formulated with sea salts for a mechanical exfoliation that frees the skin of dead cells leaving it smooth, toned and ready to receive the active ingredients contained in the products applied subsequently. The essential oils of Thyme and Lavender, with a purifying and refreshing action, are mixed with vegetable oils that nourish the skin's hydrolipidic film, making the skin supple and velvety. The fresh scent of the scrub revitalizes the body and mind, giving an intense sensation of well-being during the exfoliation.

What skin type and at what age?

Sea Salt Scrub is suitable for all skin types and can be used at any age. Given its exfoliating power, its use on injured, sensitized or undamaged skin is not recommended.

How to use?

1. Mix the product carefully before proceeding with use in order to uniform the solution and obtain a homogeneous compound.
2. Apply to damp skin and massage delicately with circular movements proceeding from the bottom upwards for 5-10 minutes.
3. Optional: use the body massage brushes (V280G or V281G) to make the exfoliation even more intense.
4. Rinse thoroughly with warm water and proceed with the application of the usual body cream.

Focus on

ESSENTIAL OIL OF THYME: obtained from the plant of Thyme, it has energizing, invigorating and revitalizing qualities useful to refresh and cleanse the skin.

SEA SALT: known for its purifying and toning properties, it is used together with other functional ingredients to reduce the feeling of heaviness and swelling in the lower limbs.

ALMOND OIL: cold-pressed oil extracted from sweet almonds and rich in trace elements such as Linoleic Acid and Vitamin D, useful for maintaining skin elasticity.

AVOCADO OIL: extracted from fresh fruit pulp and rich in linoleic acid. Thanks to its soothing and emollient properties, it nourishes and protects the skin.

ORGANIC MACADAMIA OIL: oil obtained from the Macadamia plant is rich in oleic acid and palmitoleic. The Palmitoleic Acid ensures a natural affinity with the skin by promoting the penetration of the nourishing and antioxidant ingredients of Macadamia Oil.

ESSENTIAL OIL OF ROSEMARY: obtained from the leaves of Rosemary, it has purifying, tonic-refreshing and stimulating properties.

LAVENDER ESSENTIAL OIL: essential oil extracted from Lavender flowers, is characterized by astringent, purifying, refreshing and soothing properties.

MINT ESSENTIAL OIL: obtained from the leaves of the Mint plant, its refreshing action stimulates the surface microcirculation and the absorption of the ingredients with which it is mixed.

Use it in synergy with:

1. **K1010C - Strong Gelscrub with Natural Microgranules and Glycolic Acid:** double exfoliation, chemical and mechanical, to remove impurities and dead surface cells.
2. **K1002 - Massage Cream Neutral-Body:** it nourishes, tones, protects and improves the movements of the hands during massage maneuvers.
3. **K1013 - Massage Oil Neutral:** ideal oil to improve the movements of the hands during massages.
4. **K1005 - Firming Cream with Hops and Shea Butter:** a body cream to nourish, tone and smooth the toneless skin.
