

BODY FIRM

FIRMING LOTION BANDAGES COLD EFFECT WITH HORSE CHESTNUT AND MENTHOL

Lotion based on Horse Chestnut and Menthol formulated to allow the reuse of Ready to use Saline Bandages Heavy Legs (K1074). The lotion is used to moisten the bandages and allow them to be used several times for a firming and toning treatment, capable of stimulating the superficial circulation of the lower limbs, keeping the skin compact and giving a sensation of lightness to swollen and heavy legs.

What skin type and at what age?

The lotion is used in synergy with the Ready to Use Saline Bandages Cold Effect (K1074), ideal for those who suffer from capillary fragility, swollen and heavy legs.

How to use?

1. Pour the lotion into a container or directly into the package of the Ready to use Saline Bandages Heavy Legs Cold Effect (K1074).
2. Dip the bandages in the lotion and let them soak for 5 minutes.
3. Take the bandages and squeeze them, in order to remove the excess liquid.
4. Proceed with the application of the bandages by applying a spiral bandage, starting from the ankle and reaching the buttocks; leave on for at least 30 minutes; remove the bandages without rinsing.
5. The use of Saline Bandages (K1074) is recommended in combination with pressotherapy sessions (if in possession of the equipment) for concrete and immediate results.
6. The use of slimming and toning products is not recommended during pregnancy and breastfeeding.

Focus on

MENTHOL: extracted from Mint Essential Oil, it has an important refreshing and soothing action for heavy legs. The cold effect of Menthol supports the invigorating benefits of the other functional ingredients.

HORSE CHESTNUT EXTRACT: plant known for its remarkable properties which make it an ingredient used to improve the natural superficial venous microcirculation. Escin, the most important functional ingredient present in the Horse Chestnut, is also suitable in case of a feeling of swelling and heaviness in the lower limbs.

MINT ESSENTIAL OIL: obtained from the leaves of the mint plant, its refreshing action stimulates the surface microcirculation and the absorption of the ingredients with which it is mixed.

MALLOW EXTRACT: obtained from the leaves of the herbaceous plant of Mallow, it has an intense emollient, softening and refreshing.

CHAMOMILE EXTRACT: the extract of the Chamomile plant, known for its calming properties, is used for its natural soothing ability against skin irritations and redness.

SEA SALT: known for its purifying and toning properties, it is used together with other functional ingredients to reduce the feeling of heaviness and swelling in the lower limbs.

Use it in synergy with:

1. **K1004 - Sea Salt Scrub With Thyme Essential Oil:** promotes mechanical exfoliation for smooth and toned skin, free from impurities and dead cells.
2. **K1018 - Firming Gel Bandages Cold Effect with Menthol and Panthenol:** cold effect gel that soothes swelling and heaviness in the lower limbs, ideal to use with body bandages.
3. **K1074 - Ready to use Saline Bandages Heavy Legs Cold Effect with Menthol:** bandages that act on water retention and heaviness in the lower limbs. For toned and firm skin.
4. **K1007 - Hidratissima Moisturizing Emulsion:** rapid absorption body emulsion to ensure hydration, refresh and soften the skin.
