EFFECT	Curled, long, precisely separated lashes 	Panoramic volume 	Lengthened, thickened, and lifted eyelashes 	Extreme volume effect, lengthening and eyelashes curling. 
COVERAGE	Shine and intense black	Matt black	Ultra-deep black	Shiny, intense black
GOOD TO KNOW	The desirable effect achieved by successive layers application	Instant effect with just one stroke	Foxy eyes effect with just one stroke	Mascara with conditioner
SUPERPOWER	Black pearl extract – revitalises and moisturises the lashes	Sensual scent of amber and black orchid – makes eyelashes makeup a pleasant ritual	Sweet almond oil – nourishes and regenerates eyelashes	Carob seed extract – natural active ingredient that protects, strengthens, and rebuilds the eyelashes. It improves their structure and repairs damage caused by mechanical and chemical damage.
BRUSH				
	Silicone	Nylon	Nylon	Silicone
BRUSH TECHNOLOGY	The curved sandwich technology brush has been made with the bi-injected method. The brush has a firm core with soft bristles that do not irritate the eyelids . Four different lengths of brush bristles enable: fast application, perfect combing and lengthening effect, perfect eyelashes separation.	Female body shape brush ensures maximum volume. The wavy nylon brush bristles perfectly reach even the smallest eyelashes making them look thicker.	Twisted cone-shaped brush makes it easier to style the eyelashes in the corners of the eyes. Long bristles separate the lashes effectively, shorter bristles provide additional volume with every application.	The shape of the brush makes it possible to follow the shape of the eye and the lash line . During application the lashes are being lifted, thus they become curled and lengthened .
