duo glow effect
contour duo powder

 nanorevit

**We love natural beauty
and love to highlight it.**

That's the reason why we've created
a dazzling duo and the perfect face
contouring set.

The products have been enriched with
nanoparticles with blackcurrant seed
oil, rich EFAs (essential unsaturated fatty
acids), which the skin needs for its proper
functioning.

duo glow effect

The blush will add an instant flush of colour to your complexion and the illuminating powder will give it a healthy, fresh glow that will last all day. We have carefully selected shades of both products so that they are universal and safe.

Thanks to the innovative **Back Injection** method, we managed to close in the formula of more illuminating particles that perfectly blend with the skin, giving it a phenomenal glow.

contour duo powder

We have selected the most universal powder and bronzer shades. Both are suitable for every type of beauty. Lighter colour will illuminate and accentuate best features; the darker one will make your face look slim.

Effects after four weeks of regular use:

100% - agree that the product is long lasting

80,00% - agree it moisturizes the skin

93,33% - agree it cares for the skin

93,33% - agree skin is more nourished

Thanks to the innovative **Back Injection** method, we have obtained exceptionally velvety formulas that blend with the skin and give a very natural and subtle effect.
